

North Baddesley Junior School

Policy Document

Protection of biometric information of children in schools and colleges

The school does not collect any biometric information as a resource for accessing any school systems.

- The library system uses a bar code for each pupil which is scanned in manually.
- The dinner system uses a token.
- Children have access via a username and password to the online library, project code X, Times tables Rock stars, Education City and Google Classroom.

Situation as at December 2022

To be reviewed annually or if a change is made to the above statements.
