Autumn Term Contact 4

Celebrating art at NBJS

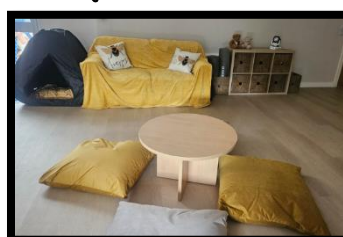

Our new hall art displays celebrate artists who use shapes in their work. Year 3 studied Wassily Kandinsky, Year 4 explored Paul Klee, Year 5 focused on Piet Mondrian, and Year 6 were inspired by Henri Matisse. The children worked incredibly hard to create these wonderful collaborative displays. A huge well done to everyone involved!

Thank you

A huge thank you to our PTA for funding new soft furnishings for **The Bee Hive Room**. Their generous support has helped create a warm, comfortable and welcoming space for children.

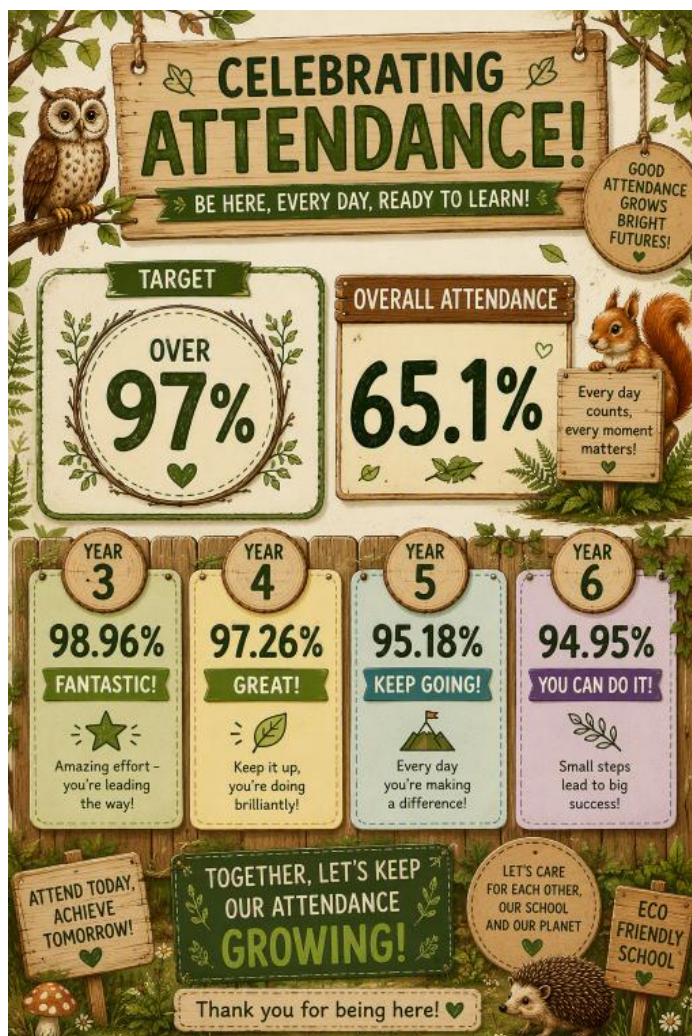

The Bee Hive Room is used for **ELSA** and

Thrive sessions, as well as a range of **academic interventions**, providing children with the emotional and educational support they need to thrive.

We are incredibly grateful to the PTA and all the families who support their fundraising efforts. Your generosity continues to make a real difference to our pupils and school community.

Happy Friday you lovely humans!

So, Mrs. Wildey got the Autumn feels this week – there's a quiet shift in the air. The leaves are beginning to change, the mornings feel a little cooler, and the subtle arrival of autumn has got me thinking, change can be a beautiful thing.

And our brains? Well, we sometimes need to convince them of this!

When faced with something new or tricky, our instinct can be to run for the hills (or the cheese!). But when we try new things, tackle challenges and step beyond our comfort zones, our brains build new neural connections. Through neuroplasticity, our brains have the wonderful ability to adapt, learn and grow (not literally, our heads are not pumpkins).

It might feel wobbly, uncomfortable or even a little scary, but that doesn't mean we can't do it. Sometimes, it's where the most meaningful learning begins.

So, as autumn begins to paint our world in golden colours, let's embrace the wobbles, celebrate the brave tries and remember that growth often begins just beyond what feels comfortable.
