

# Maths planning

Maths plans are a document used to show the journey within a unit of work that are shared with all working within the year team. Planning needs to be a live document that is adapted in light of assessments within the unit.

## All planning to include

Key vocabulary for the unit and key STEM sentences that will be used.

Key visual images that will be used with the unit of work.

Clear evidence of task designs and connections with other areas of Maths.

Objectives being covered within the unit.

Adaptations and challenge clearly specified.

Allocation of adults within the lesson if appropriate.

Planning needs to be shared with all adults working within the year team.

Planning will sit alongside flipcharts.
